

17 Apr 2022

Dear friends,

This month I'm glad to welcome our first member from South America, LU1AGS, HNARC #43.

Our award is being downloaded from EU and DX stations, from both platforms. We thank our members who promote our award through their sites (ex QRZ.com), mailing lists etc.

Many hams are interested in our awards and this is promising, although there aren't any naval activities during the spring.

Starting this month you can hunt the MFCA Club Station Diploma - OE6XMF. QSOs with OE6XMF from previous years are valid.

Rules are available here: <https://hamlog.online/club/mfca/431/rules/>

For additional naval activities in the coming weeks, you can visit the ARMI Calendar: [Calendar \(assoradiomarinai.it\)](http://assoradiomarinai.it)

Happy Easter from HNARC working group.

Antonis Parashis
